

Are you worried about hepatitis C?

HEP C U Later

Have you:

Shared equipment when using drugs?

Had a blood transfusion before 1996?

Had dental or medical treatment abroad in unsterile conditions?

Not been tested after a needle stick injury?

Had a piercing, tattoo, electrolysis, semi-permanent make up or acupuncture using equipment not sterilised?

Had unprotected sex (with possibility of blood-to-blood contact) with someone who may have had hepatitis C?
